

Out with the tap, in with the Quooker

Upgrade now
and get your
Quooker installed
free of charge*

A Quooker tap can be installed in any existing kitchen and it couldn't be easier. With no extra hole needed in the sink or worktop, you simply replace your current kitchen tap with a Quooker tap. Experience the convenience of having cold, hot and 100°C boiling water with a pull out hose - all from one tap.
